CONFERENCE PROGRAMME PLANNING & EXECUTION

The Programme and Content Sub-Committee had the awesome task of fashioning the content and schedule for the Conference. This involved consultations and accommodation of a variety of viewpoints and constructive suggestions from stakeholders in Jamaica and the Diaspora.

The Programme and Content Sub-Committee carried out this task within the context of a synchronized team effort which involved all the Sub-Committees of the Preparatory Committee (PREPCOM) for the Conference, the Conference Secretariat headed by the Diaspora Affairs Department of the Ministry of Foreign Affairs and Foreign Trade (MFAFT), the Chairman of PREPCOM, the Project Manager for the Conference and the Jamaica Diaspora Institute.
The major **Sub-committees of PREPCOM** which worked towards the successful implementation of the Conference are shown in the Table below.

The Publications Team did an excellent job in converting the programme and schedule, into an attractive publication which complemented the excellent Conference Magazine. The carefully selected articles in the Conference Magazine together with the Content of the Programme generated interest among attendees to participate in the different programme activities.

The Speakers, Presenters, Moderators and an Interactive Audience, together with the Conference Secretariat, Project Management Staff, Budget, Logistics, Marketing and PR and Entertainment, Look and Feel Committees, the Jamaica Information Service (JIS), the Creative Production and Training Centre (CPTC), volunteers, members of the
media and the staff and representatives from public and private sector companies who showcased their services and opportunities for business, investment and social partnerships formed an impressive team in making the execution of the programme a successful reality.

SAMPLE OF COMMENTS FROM DIASPORA MEMBERS

Location of Conference

“I appreciate that it was held in Kingston,”

“Most of the issues discussed affected Kingston; and it was important that we immersed in the capital city. How can you solve problems if you are not immersed in them?” she asked.

The holding the conference in Kingston was a positive move. “I like that it was in Kingston, the change of venue is good. Kingston has fewer tourists at this time of the year and I could enjoy being Jamaican, walking around the city, and buying my own food,”

I'm a firm believer that downtown Kingston should be redeveloped. There has been some progress in this regard; however, some people are now seeing the light. When I walk downtown I see the beautiful architecture of the buildings, which show the rich multi-culture of the city,”
Components of the Conference

“It was a great conference, I love the fact that people were able to come together from different regions.

“I would have liked to see some more community engagement”.

“I found the Market Place to be quite valuable in providing information on the range of products and services offered to the Diaspora.”

“I detected a rise in the level of optimism among Conference attendees; and there was the perception of seriousness in the approach of the Conference organizers evidenced in part by the increased role the private sector is assuming in this endeavour.”

“The programme was overly intense with information and with not enough time for Diaspora response and discussion.”

“Diaspora expertise and input could have been marshalled more effectively”.

“The Government should recognize that true partnership means consultation and respect for the views and the expertise of the Diaspora more broadly and not just the views of a few.”

“The Diaspora Bond project has been on the drawing board for several years, and many in the Diaspora have expressed frustration with lack of progress on this or any other vehicle for investing in Jamaica.”

“There was no clear indication of an effective mechanism to tap into the exceptional abundance of human resources available in the Diaspora.”

“The Conference Centre is not suitable for the Marketplace”.

“The registration Process was complicated.”
“The evening events (other than Monday) were less than satisfactory. The event on our last night was disappointing. Not a god way to end an excellent Conference”.

Jamaica Global Young Leaders

Create an online video and audio on Jamaican Culture for cultural immersion of 2nd, 3rd and 4th generation Diaspora members.

MAJOR RECOMMENDATIONS

Health

- Efforts should be made get the support of the Diaspora to assist in providing the necessary personnel with relevant expertise for the new hospitals and where possible assist in sourcing equipment.
- To address the issue of renal failure, there needs to be greater public/private partnerships, for expansion of facilities to offer treatment and increase donation from the Diaspora to fund live kidney transplant procedure to be done in Jamaica.
Education

- The “Pledge2Build” Jamaica 55 project should be a collaborative initiative involving the Diaspora Education Task Force, The National Education Trust and Jamaica National Foundation.

Crime Intervention and Prevention

- The Jamaican Diaspora Crime Intervention and Prevention Task Force (JDCIPT) should build a network of experts in crime and national security within the Diaspora and map their skills with critical security areas in Jamaica for which there are gaps locally. These include 6 priority areas identified by the MNS:
  - 150 Stations Fix Up
  - Peace Management Initiative (PMI) Conflict Resolution and Reprisal Prevention
  - We Transform Programme
  - Combined Cadet Force Programme
  - DRIVE – Direct Results of Inmate Value and Empowerment Programme – Rehabilitation of Offenders including projects such as the “Beacon Project”.

- Utilization of the Global Network of icons in the Jamaican Diaspora as Brand Ambassadors and drivers of major investments to Jamaica

- Ministry of Foreign Affairs and Foreign Trade to review existing honorary consul policy, examine the needs and opportunities in different Diaspora locations to determine the scope of expansion of the number of Honorary Consuls.
Medical Marajuana

1. Focus should be placed on the sensitisation towards changing the stigma associated with marijuana and rebranding it as a viable enabler of economic growth and job creation.

2. There is need to explore creative ways of channelling Diaspora investments into the development of the Medical Marijuana and Nutraceuticals sector, in view of the challenges posed by the issue of Correspondent Banking Relationships (CBRs) in the international banking industry.

The Creative Economy

1) With regard to intellectual property rights, Jamaica needs to sign the Madrid Protocol for the purpose of trademarking content produced by our musicians.

2) The Diaspora should be encouraged to invest in the National Stadium in order to transform it into a modern state of the art facility.
